PLACARDS WILL STAND

Saloon Men Appeal in Vain to the Excise Board.

CLAIM THE RULE IS UNJUST

Liquor Dealers' Association Send a Delegation to Protest Against What They Claim is a Discrimination. Question of Sunday Lights in Bar-rooms Also Argued.

A committee from the Liquor Dealers' Association, appointed at the meeting held last Wednesday at Costello's Hall, was before the excise board to-day to protest against the order requiring application for license to placard the building where it is intended to open a bar with a notice of the intention.

The committee also entered an objection to a rule which the delegation understood to have been issued requiring a light to be kept burning at night and during Sunday.

It was the understanding, as under the law, the owner of a saloon has no right to enter the bar on Sunday, except in case of fire or sickness, that the light left burning Saturday night must continue to burn until the doors are opened on Monday.

The committee was composed of Messrs. E. L. Jordan, Hugh Cogrove, William McGilver, Thomas Walsh, and M. P. Sullivan, the latter serving as spokesman. Upon hearing the case the board informed the committee that there was a misconception of the order for placarding the prospective saloon, and no rule existed requiring the light in the bar.

"As a matter of safety," said a member of the board, "it might be well to observe the rule in force in other business places, and keep a light, but no man is obliged to do so."

ONLY NEW APPLICANTS.

Respecting the order for the posting of a notice, President Johnson explained that the rule applies only to new applicants and to transfers, and that established places, not obliged to procure signatures for removals, are exempt.

Mr. Sullivan thereupon admitted that the thing had been extracted from the requirement in large measure, but Mr. Cogrove asked that the order be rescinded altogether.

"It is humiliating to reputable men," he said, "to have his business treated as a pesthouse. There are men in the liquor business who are just as respectable as people in any other occupation, and so long as they comply with the law it is unjust to single them out in this way. No man has any right to protest against a saloon so long as its proprietor conforms to the law."

"Then you do not consider this to be a free country?" queried Col. Bates, of the board.

"Yes, I do," retorted Mr. Cogrove, "and for that reason I ask that the order be rescinded. The law gives a man the right to run a saloon, and you will find that the respectable bartender is more particular to get a respectable class of customers than the grocer or the dry goods merchant."

BOARD WAS EMPHATIC.

"Well, the order will not be rescinded," said President Johnson. "We debated and considered the question carefully before it was decided, and the rule will be enforced against new places and transfers."

"The saloon men are in a peculiar position," remarked Mr. Cogrove later. "Judge Miller fined a woman for entering her bar on Sunday to procure a guest of most from the ice chest. Another decision of his is to the effect that a hotel waiter may enter a bar as often as is necessary for the accommodation of guests, and still another decision was rendered exempting the Press Club from paying license. These are three decisions that seem to me to be conflicting."

BASEMENT SCHOOL ROOMS.

Northeast Citizens Earnestly Protest Against Their Use.

Citizens of Northeast Washington have entered an indignant protest against the use of basements for school purposes, the protest being drawn up by the announcement that the school trustees are contemplating the adoption of the plan at the Taylor, Madison and Pierce school buildings.

The protest has the endorsement of Health Officer Woodward, who has expressed the opinion that basement rooms are unfit for the purpose, and that it would be dangerous to place the children in such quarters.

This matter was brought to the attention of the authorities by President Evan H. Tucker, of the Northeast Citizens' Association, and subsequently Dr. Woodward personally inspected the rooms, with the result noted.

The trustees assert that there is no other way to accommodate the large attendance of pupils, and the plan in view is to utilize the basements for the fourth grades.

Armor Plate Smashed.

Experiments were made at Indian Head yesterday on a 10-1-2 inch steel chrome plate manufactured by the Carnegie Company. An 8 inch Carpenter shell, with a velocity of 1,866 feet, penetrated the plate and lodged 100 yards beyond. A gashed plate was also tried with an 8 inch Carpenter projectile with a velocity of 2,100 feet. The point of the projectile penetrated the plate.

Pythians On an Outing.

Myrtle Lodge, No. 25, one of the divisions of the Army of the Lily-Knights of Pythias, gave a treat to their friends yesterday and last night at River View, in the form of an excursion. The members of the lodge in strong numbers were participants, and an unusual number of ladies accompanied them. At the grounds the committee of arrangements gave an interesting and varied programme.

Red Bill Not Held.

John Jackson, alias "Red Bill," and his brother, Richard Jackson, were arraigned in the police court to-day before Judge Mills, charged with carrying concealed weapons and assault, the outcome of the row in Roslyn, as told in to-day's Morning Times. Policemen Passau and Trussell arrested the two men, but Judge Mills said that their evidence was conflicting, and the case was dismissed.

FOR ASSAULTING HUSBAND.

Wright and Fishback to Be Brought to Trial.

The excitement in the neighborhood of Wheatons and Kensington, Montgomery County, Md., over the assault upon Mr. J. L. Husband, of the Postoffice Department, by a negro named Alex Wright last week during a political controversy, as published in The Evening Times, continues unabated. The physicians attending Mr. Husband pronounce his injuries of a serious nature, and fears are entertained of paralysis of the brain.

In conversation this morning with a Times reporter Mr. H. M. Husband, a brother of the injured man, said much feeling is entertained in Montgomery County over the assault, and every effort will be made to punish the parties who figured in it.

J. Howard Fishback, a clerk in the Interstate Commerce Commission, was arrested on the charge of being an accessory to the assault, and gave bond in the sum of \$500, O. R. Harrington on his bond. Wright, who struck the blow, was placed under the same amount of bond, Fishback becoming his bondsman. The cases will come up for trial before Judge Condit at Silgo on Friday.

TOOK HIS OWN REVENGE

George V. Bailey Assaulted Under the Police Court Porch.

His Assailant Had Preferred a Case Which Was Dismissed by His Honor as Trivial.

There were comparatively few prisoners in the dock in Judge Scott's court this morning when his honor took his seat on the bench, and it did not take long to dispose of the petty charges.

Caspar Czarnes, a boy about eighteen years old, pleaded not guilty to a charge of destroying private property. Policeman Haler made the arrest and Johanna Czarnes, the boy's mother, preferred the charge.

The old lady took the stand, and weepingly told the court that she could do nothing with her son. He was vicious and ill-tempered, and yesterday he threw a sick at her and broke a large mirror. She said he spent his nights in card playing and his days in loafing.

"Why did you break your mother's furniture?" asked Mr. Pugh.

"Because she went to work and threw a new suit of clothes on the floor and tore a sleeve out of it. She treats me bad, Judge, and I wanted to leave home."

One One Handiboe

Judge Scott said he could not conceive anything worse than a boy who would abuse his mother, and imposed a sentence of sixty days in the workhouse.

Mary Ditch, Patrick Dodd and Rachel Morton of No. 926 Taylor's alley northwest, were charged with maintaining a nuisance and the court took their personal bonds.

Robert Larkins and Edmond Dougherty, charged with disorderly conduct, George W. Clarke, obstructing the sidewalk, and Thaddeus Brooks, unlicensed entertainment, all forfeited collateral by non-appearance.

Geo. V. Bailey, a clerk in the Smithsonian, was charged by Michael Nolan with keeping a biting dog.

The next case had been called, when the court-room was suddenly thrown into confusion. A man was heard in the front part of the building, and Mr. Bailey rushed in with blood streaming down his face, and announced that the father of the boy had assaulted him.

Mrs. Bailey had fainted, and was carried into the prosecuting attorney's office, while a couple of policemen pursued her husband's assailant down the street. Nolan was overtaken a short distance from the court and brought before Judge Mills, with the witnesses. He pleaded guilty, and the court imposed a sentence of three months in jail without fine.

Henry Snodgrass pleaded guilty to being disorderly, but desired to make a statement. His explanation only partially explained, and the court imposed a fine of \$2.

Policeman Flynn again captured a court loafer, and brought him in before Judge Scott, who took his personal bonds.

Lawyer Wm. P. Lascelle was again in the dock on the same old charge—drunk. The General was once a brilliant lawyer, but whiskey has been his ruin. He stated to the court that he had business of importance to transact to-day, and on promising to report in the court each morning for thirty days, Judge Scott took his personal bonds.

Walter Webster, obstructing the sidewalk; Daniel Shields, throwing missiles; Frank Hickey, disorderly conduct; Harry Burk, profanity, pleaded guilty, and the usual fines were imposed.

TRAFFIC WAS SUSPENDED.

Five Car Lines Tied Up by an Accident to a Ninth Street Motor.

The five street railroad lines converging at Pennsylvania avenue and Ninth street, were last night completely tied up for a period of nearly two hours, as told in The Morning Times. The two thoroughfares were filled with cars for several hours.

At 5:00 p. m. the trolley slid off of electric car No. 17, southbound, and became wedged in the center slot of the west-bound track of the Washington & Georgetown line. The mechanism of the car became disarranged and forming a connection with the circuit, made the vicinity dangerous for curious spectators.

The cars of the three entangled lines, together with the Belt and Anacostia roads, piled up behind each other, and traffic was delayed until 7:30 o'clock. A combined force of workmen and electricians repaired the damages, and the managers of the roads will take steps to prevent a recurrence of the accident.

Gonzaga College Notes.

The board of directors of Gonzaga College, consisting of Revs. Cornelius Gillespie, S. J.; J. A. Conway, M. G. Dolan, J. P. O'Connell, and John M. Collins, decided at a recent meeting that the curriculum of studies should be elevated to that of a first class university. For many years past Gonzaga has sent her advanced students to Georgetown to complete their course. Hereafter they will receive a higher standard of education in order to prepare for the degrees given in the Catholic University of America.

Bishop John J. Keane has donated two free scholarships to the class of the first graduates of Gonzaga. In addition to these scholarships, three others are given by the faculty to successful candidates passing the required examinations. Boys from the city and vicinity are eligible.

Promising Drum Corps.

The C. G. Conn Drum Corps, a new and promising musical organization of boys under 15, will give a concert on August 28 at the corner of Tenth and D streets northwest. The corps was only organized in February last and is composed of some of the Knights of Pythias. It has a membership of forty, the officers being: A. A. Burdell, leader; Stephen Howland, drum instructor; J. H. Weisenborn, quartermaster.

WRAPS WILL BE NEEDED

Fall of Twenty-five Degrees Predicted by Weather Prophets.

Cold Wave Is Bound East and Will Reach the Coast by Saturday Morning.

Each set of vertebrae in the backbone of the hot wave has been dislocated beyond the aid of a surgeon. It is freezing to-day in Montana, and frosts fell last night in many parts of the Northwest.

Sounds pleasant, doesn't it? And if the predictions of the Weather Bureau turn out to be correct Washington will be enjoying the same climatic conditions very soon. The cold wave is said to be working its way in this direction, and is expected to reach this city Friday night or Saturday morning, when the thermometer will take a decided drop, and a fall of 25 or 30 degrees in temperature will be experienced.

Furs and overcoats are expected to be very much in evidence, and there is apt to be a decided suggestion of camphor in the atmosphere. After the melting-out process which the people have undergone for the past week the delightful temperature to-day, which is but a forerunner of what is to shortly follow, has afforded a most exhilarating and invigorating relief.

A Times reporter called at the Weather Bureau this morning to ask whether there was any truth in the rumor that Washington was soon to be converted into a summer resort.

"Yes, it is true," said the chief forecaster, "a cold wave is on its way, and will reach the city Friday night. The temperature to-day will probably not go higher than 86 degrees, and, while it may be slightly warmer tomorrow, the people of Washington have a treat in the shape of some cool weather in store for them in less than forty-eight hours."

The lowest temperature ever reported at this season of the year comes from Havre, Mont., to-day, the temperature there having dropped to the freezing point. At Bismarck, N. D., the temperature has fallen 30 degrees in the last twenty-four hours, and the same conditions are being experienced throughout many places in the Northwest.

"The coming cold wave will extend over the entire Atlantic coast, cities on or near the seaboard experiencing the greatest change."

"What has been the cause of the excessively hot weather of the past few days?" asked the reporter.

"It has been entirely due to the stagnation of the air, which becomes heated, and a warm temperature is the result. But the air currents are beginning to move now, and that is the cause of this delightful change to-day. A severe storm is being experienced along the Gulf to-day, and it may produce some damage. Yes, you can say to the readers of The Times that if all my observations are correct they will need their light overcoats on Saturday morning."

Sherman Brigade in Camp.

Wooler, Aug. 14.—The veterans of the Sherman Brigade began to arrive for their twenty-sixth reunion yesterday. About 250 are here and camping out in the city park. The brigade was organized by Senator John Sherman and consisted of the Sixty-fourth and Sixty-fifth Ohio Infantry Volunteers, Sixth Ohio Battery, and Companies A and B of McLaughlin Cavalry Squadron. The brigade was commanded in the field by Gen. Thomas J. Wood, Gen. J. A. Garfield, and Charles D. Harker.

Made Sure Work of It.

New York, Aug. 14.—Norman S. Mossey, the lawyer who tried to jump in front of a Sixth avenue "L" train on Monday and fell to the street, died in the New York Hospital this morning. As he was apparently injured but slightly, the physicians think he took poison after he fell.

The woman's page is a bright feature of the Morning Times.

YOU'LL NEED TEMPTING

to come out shopping these sultry days, but we know well that such prices as these, in connection with our new Credit Plan, will not allow you to rest quietly at home.
